

## EXTENSION OF NEW-LINE FITTING RANGE

Up from August 2013, WABCO offers the full range of New Line ABC™ Push-In fittings, to provide the recent fitting technology - 27 tube-thread-combinations will be available in total.

The New Line ABC™ product range provides several benefits compared to the existing range, as

- **Grip then Seal:** When connection sealed, no slip out is possible
- **Check Valve:** Integrated security check for correct tube assembly
- **Feedback Signal:** Clicking sound on correct tube assembly
- **Release Tool:** Tube can be released by tool, making the fittings re-usable

The existing brass fittings (BRK) will be replaced by the New Line ABC™ Push-In fittings.
