

NEW REPAIR KITS FOR AIR DISC BRAKE PAN™17

In response to market expectations with a focus on specific aftermarket needs and market trends WABCO introduces two new repair kits: universal carriers for more than 50 WABCO PAN™17 brake applications.

- **640 175 001 2 – Carrier left brake PAN™17**
- **640 175 002 2 – Carrier right brake PAN™17**

With these new two repair kits, customers do not have to replace the full replacement brakes, but can mount the worn carrier from the calliper and reuse the calliper with new a carrier instead.

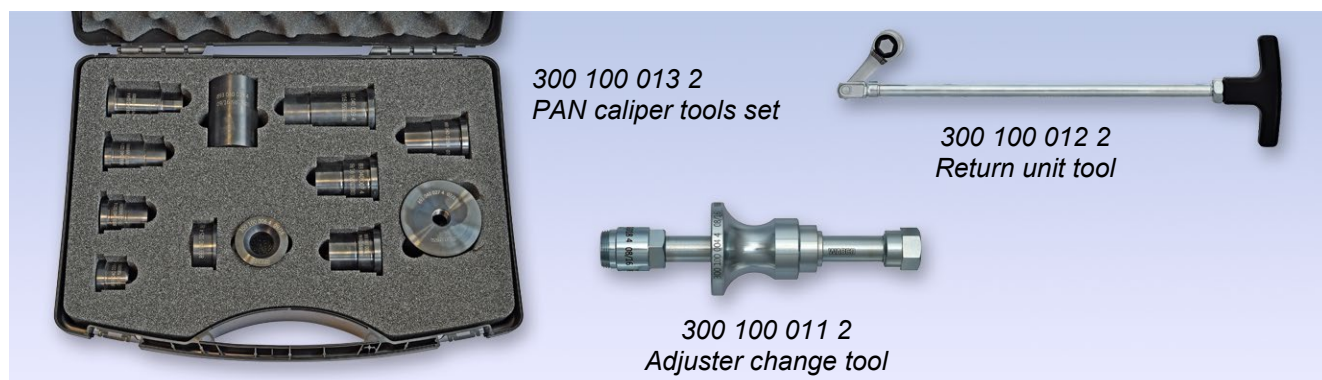

PAN™17 are very popular air disc brakes for smaller commercial vehicles and buses of different brands, e.g.: DAF/Paccar, MAN, Iveco, Otocar, Ashok Leyland, Alexander Dennis, Albion, Gigant and many more. In the past 5 years alone, WABCO sold 350,000 applications to OE vehicle manufacturers.

Brake carrier PAN™17

PAN™ TOOL SET

The WABCO brake tool is a modular tool set for repairing WABCO callipers and adjusting the return units of truck or trailers. WABCO has developed a special cranked ratchet wrench specifically designed for this often-difficult task. The tool will work with a wide range of OEM equipment.

BRAKE REPAIR TRAINING

WABCO Academy provides instructions, tutorials and e-learning how to repair and maintain WABCO air disc brakes in proper way.
