

## WABCO EXTENDS CORE RETURN SYSTEM

From 1 February 2020, a wide range of WABCO parts will be invoiced with a surcharge that will be refunded upon return of the core.

### SAFETY FIRST

WABCO's reverse logistics process protects customers from misuse or reconditioning broken, damaged or worn parts that have critical safety issues.

- When cores are reused at the end of their life cycle, they may exhibit material fatigue leading to malfunctioning.
- WABCO's reverse logistics process aims to collect and inspect returned cores before they are remanufactured to the highest quality standards and processes.

WABCO strongly advises against using parts remanufactured by unauthorised third parties!

## ENVIRONMENTAL PROTECTION

Returning cores supports WABCO's contribution to a better environment by ensuring that used products that are not suitable for remanufacturing are properly disposed of.

## HOW IT WORKS

**Your used part can last a second life! Return it to WABCO and get your refund!**

When you purchase remanufactured parts from WABCO Reman Solutions and return your used cores to us, you will receive a refund! In addition, you save disposal costs through less waste and protect the environment.

- Use the box for the remanufactured part to return your used core.
- Contact your authorised [WABCO partner](http://www.wabco-auto.com/Get-in-touch) (www.wabco-auto.com/Get-in-touch) to pick up the box.
- You will receive a refund for the surcharge you paid when you purchased your remanufactured device.

**It's that simple!** For more information visit [myWABCO](http://www.am.wabco-auto.com) (www.am.wabco-auto.com).
