

MARKET INFORMATION

NEW REMANUFACTURED AIR COMPRESSORS

WABCO Reman Solutions offers remanufactured air compressors for the Independent Aftermarket (IAM) as an addition to its current product portfolio.

Remanufactured compressors provide the same quality and high performance levels as new units.

BENEFITS FOR THE CUSTOMER

Remanufactured WABCO products meet the highest quality standards because they are produced and tested according to the same technical specifications as new ones. That is why we grant the same warranty as for our new products.

PRODUCT NUMBERS, CROSS REFERENCES, VEHICLE APPLICATIONS

Product description	WABCO product number			OE reference	
	REMAN	Original	Replacement	Product number	Brand
Single Cylinder Compressor 393 cc	912 210 000 R	912 210 000 0	–	A0011307615 A0011309715 A0021304415	Daimler
Twin Cylinder Compressor 636 cc	912 522 002 R	912 522 002 0	912 522 000 0 912 522 001 0	2573753 2845574	Scania

CORE SURCHARGE

The products are invoiced with a surcharge that will be refunded upon return of the core (used part).

- EUR 175.00 / GBP 150.00 / CHF 245.00

	912 522 921 2	Valve plate
	912 512 900 2	Piston + rod
	912 522 923 2	Actuation unit

BENEFITS OF REMANUFACTURING

- Reduces material use, preserves natural resources
- Waste reduction
- Extends product lifecycle

IN LINE WITH WABCO VALUES

With the launch of its new remanufactured products, WABCO is continually helping to reduce environmental pollution. By purchasing our Green Label Reman products, which are identical to new WABCO products in terms of functionality and performance, you are supporting WABCO's endeavour for greater sustainability.

All production operations are powered by rigorous Six Sigma Lean processes with the additional assurance of IATF 16949:2016 certification.

ABOUT WABCO REMAN SOLUTIONS

Formed by WABCO in 2010, WABCO Reman Solutions specialises in remanufacturing electronic and mechatronic components as well as conventional mechanical products from WABCO and other manufacturers. WABCO remanufactured products are used by original equipment manufacturers and the Independent Aftermarket (IAM) worldwide.

WABCO Reman Solutions has facilities in Rochester Hills, Michigan, USA; Krajkow, Poland; Jinan, China; Campinas, Brazil and a joint operation in San Luis Potosi, Mexico.

IATF 16949:2016 certification demonstrates that WABCO Reman Solutions is recognised as a premier automotive parts remanufacturer, providing customers with high quality, cost effective products and services.

WABCO Reman Solution has been awarded the titles:

- 'Heavy Duty Remanufacturer of the Year' by APRA in 2014,
- 'Most Popular Remanufacturer in China' by DUXES in 2014,
- 'Remanufacturer of the Year' by REMATEC in 2017.
