	en	de	fr	es	it	ru
A	Air spring suspension.	Luftfederung.	Suspension pneumatique.	Suspensión neumática.	Sospensione pneumatica.	Пневмоподвеска
H	Heavy duty, bad roads.	Verstärkte Federung, für schlechte Straßenverhältnisse.	Suspension renforcée.	Suspensión reforzada, para carreteras malas.	Sospensione rinforzata.	Высокие нагрузки, бездорожье
I	Interchangeable.	Austauschbar.	Interchangeable.	Intercambiable.	Intercambiabile.	Взаимозаменяемый
N	Normal duty, good roads.	Normale Federung, für gute Straßenverhältnisse.	Suspension normale.	Suspensión normal, para carreteras buenas.	Sospensione normale.	Обычные нагрузки, шоссе
P	For parabolic spring.	Für Parabolfeder.	Pour ressorts paraboliques.	Para muelle parabólico.	Per balestra parabolica.	Для параболических рессор
T	Leaf spring.	Blattfeder.	Ressorts à lames.	Muelle de ballesta.	Balestra trapezoidale.	Листовая рессора
3	Stabilizer shock absorber.	Lenkungsämpfer.	Amort.pour la stabilité.	Amort. estabilizador.	Amm. per stabilizzatore.	Амортизатор стабилизатора
11	Trailing axle.	Nachlaufachse.	3ème essieu.	3er eje.	3° asse.	Ось прицепа
14	2nd front axle.	2. Vorderachse.	2ème essieu avant.	2° eje anterior.	2° assale anteriore.	Вторая передняя ось
15	Brake cylinder pointing backward.	Bremszylinder nach hinten zeigend.	Cylindre de frein vers l'arrière.	Cilindro freno trasero.	Cilindro freno posteriore.	заднее расположение тормозного цилиндра
17	2 shock absorbers in front of the axle.	2 Stossdämpfer Vorderachse.	2 amortisseurs avant essieu.	2 amort. en eje delantero.	2 amm. avanti assale.	2 амортизатора перед осью
18	2 shock absorbers behind the axle.	2 Stossdämpfer Hinterachse.	2 amortisseurs arrière essieu.	2 amort. en eje trasero.	2 amm. dietro assale.	2 амортизатора за осью
19	Short cab.	Kurzes Fahrerhaus.	Cabine courte.	Cabina corta.	Cabina corta.	Короткая кабина
20	Long cab.	Langes Fahrerhaus.	Cabine longue.	Cabina larga.	Cabina lunga.	Длинная кабина
21	Width bottom eye mm 40.	Auge unten 40 mm Breite.	Largeur oeil en bas 40 mm.	Ancho de agujero de abajo mm 40.	Larghezza occhio inf. mm 40	Ширина нижней проушины 40 мм
24	With coil spring.	Für Schraubenfeder.	Avec ressort hélicoïdal.	Con muelle helicoidal.	Con molla elicoidale.	С цилиндрической спиральной пружиной
25	Driving axle.	Antriebsachse.	Essieu moteur.	Eje motriz.	Asse motore.	Ведущая ось
26	Mid lift axle.	Mittlere Hebungachse.	Essieu central relevable.	Medio eje ferbi.	Asse di sollevamento centrale.	Средняя подъемная ось
27	Steering axle.	Lenkungsachse.	Essieu directeur.	Eje de dirección.	Asse della direzione.	Рулевая ось

en Important hints

To ensure the proper operation of our WABCO shock absorber over time, we recommend that you follow these useful hints:

Before fitting the shock absorber, make sure that the dimensions of the replacement shock absorber at full compression and rebound are close enough to the existing one. Check also that the dimensions ($D1 \times L1 - D2 \times L2$) and the type of connections are compatible with those of the shock absorber to be replaced. Never select your replacement by approximation, especially when it is intended for vehicles equipped with air suspension systems. If in doubt, contact our sales office, who will promptly advise you on the best solution to your problem. Those shock absorbers that are to be installed in a horizontal position to selfsteering axles have a predetermined mounting position marked with the wording "ALTO" on one end. Be sure to install the shock absorber with the side "ALTO" facing the vehicle frame.

Improper installation will impair operation. In the event of disposal, follow the environmental protection rules concerning the disposal of used oil. In some cases, our shock absorbers may not be the original type, though full interchangeability is ensured anyway. For this reason, supplier names and reference numbers mentioned in this catalogue are provided by way of indication only.

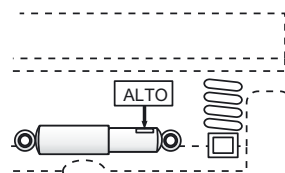

de Wichtige Hinweise

Zur Gewährleistung eines ordnungsgemäßen und dauerhaften Betriebs unseres WABCO Stoßdämpfers empfehlen wir Ihnen folgende, nützliche Hinweise zu befolgen:

Vor der Bestellung ist sorgfältig zu prüfen, ob die Maße des Stoßdämpfers (C-O) ganz geschlossen und offen mit den Maßen des zu ersetzenden Stoßdämpfers übereinstimmen. Außerdem ist zu prüfen, ob die Maße ($D1 \times L1 - D2 \times L2$) und die Anschlüsse mit denen des zu ersetzenden Stoßdämpfers übereinstimmen. Nie sollten Sie einen Stoßdämpfer nach dem Motto "so müßte es klappen" ersetzen, vor allem nicht an den Fahrzeugen, die mit pneumatischer Federung versehen sind. Im Zweifelsfall bitten wir Sie, sich an unsere Verkaufsabteilung zu wenden, die Ihnen unverzüglich die beste Lösung empfehlen wird. Die waagrecht an die Lenkachsen montierten Stoßdämpfer haben eine bestimmte Montageposition, die durch die Markierung "ALTO" am Teil selbst angegeben ist. Während der Montage ist deshalb sicherzustellen, dass der mit der Markierung "ALTO" versehene Teil in Richtung des Fahrzeugrahmens montiert wird. Sollte der Stoßdämpfer falsch montiert werden, funktioniert er nicht ordnungsgemäß.

Bei der Verschrottung der Teile müssen die Umweltschutznormen bezüglich der Altölbeseitigung beachtet werden. In manchen Fällen sind unsere Stoßdämpfer keine Originalteile, sind aber mit diesen Stoßdämpfern vollständig austauschbar. Daher sind die in diesem Katalog angegebenen Herstelleramen und -referenzen lediglich rein informativ.

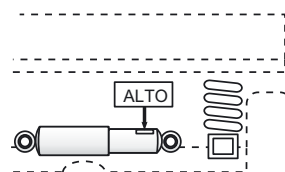

fr Avertissements importants

Pour assurer un fonctionnement correct et durable de notre amortisseur WABCO, nous vous conseillons de suivre les indications utiles suivantes:

Avant la commande, toujours contrôler scrupuleusement que les dimensions complètement fermé/ouvert (C-O) de l'amortisseur soient identiques à celles de l'amortisseur à remplacer. Contrôler aussi que les tailles ($D1 \times L1 - D2 \times L2$) ainsi que le type de fixation soient identiques à ceux de l'amortisseur à remplacer. Ne jamais remplacer un amortisseur en pensant "celui-là devrait aller", surtout en cas de véhicules équipés de suspensions pneumatiques. En cas de doute, contacter nos bureaux de vente qui vous indiqueront rapidement la meilleure solution. En ce qui concerne les amortisseurs montés à l'horizontale sur les essieux de direction assistée, leur position, indiqué par le message "ALTO" inscrit sur la pièce, doit être respectée. Par conséquent, durant le montage, vérifier que la partie avec le message "ALTO" soit dirigée vers le châssis du véhicule.

Si, par erreur, le montage n'est pas effectué correctement, l'amortisseur ne fonctionne pas normalement. En cas de dépose, respecter les normes en vigueur concernant l'élimination des huiles usées.

Dans certains cas, nos amortisseurs ne sont pas originaux mais sont parfaitement interchangeables avec ceux-ci. Par conséquent, les noms et les références des fabricants cités dans ce catalogue sont purement indicatifs.

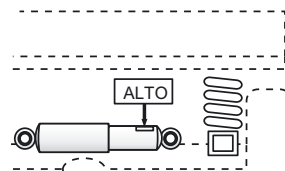

es Advertencias importantes

Para garantizar en el tiempo un correcto funcionamiento de nuestro amortiguador WABCO, aconsejamos respetar las siguientes instrucciones:

Antes de realizar el pedido, debemos cerciorarnos de que las medidas cerrado-abierto (C-O) del amortiguador sean similares a las del amortiguador a sustituir. Asimismo controlar además, que las medidas ($D1 \times L1 - D2 \times L2$) y el tipo de amarre sean iguales al amortiguador a sustituir. Jamás cambiar un amortiguador por aproximación, especialmente en los vehículos equipados con suspensiones neumáticas. En caso de duda contactar con nuestro departamento de ventas donde se le aconsejará rápidamente la mejor solución. Los amortiguadores montados en horizontal en los ejes autodireccionales, disponen de una posición obligatoria indicada como "ALTO" sobre la pieza. Por lo tanto durante el montaje cerciorarse que la parte marcada como "ALTO" se encuentre dirigida hacia el chasis del vehículo.

En caso de montaje diferente y en consecuencia incorrecto, el amortiguador no funcionará de forma adecuada. De proceder a su retirada como desecho respetar las normas vigentes relativas a la eliminación de aceites usados.

En algunos casos nuestros amortiguadores no son originales pero son perfectamente intercambiables. Por tanto las definiciones y referencias de los constructores mencionados en el presente catálogo deben ser consideradas simplemente como indicativas.

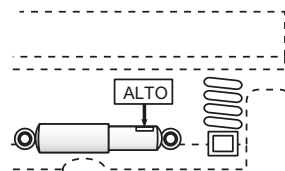

it Avvertenze importanti

Per assicurare un corretto e duraturo funzionamento del nostro ammortizzatore WABCO, vi suggeriamo di osservare le seguenti utili indicazioni:

Controllate sempre e con scrupolo, prima dell'ordinazione che le dimensioni tutto chiuso/aperto (C-O) dell'ammortizzatore siano sufficientemente uguali a quello da sostituire. Controllate anche che le misure ($D1 \times L1 - D2 \times L2$) ed il tipo di attacchi siano uguali all'ammortizzatore da sostituire. Non sostituite mai un'ammortizzatore pensando "dovrebbe andare bene", soprattutto su quei veicoli dotati di sospensioni pneumatiche. In caso di dubbio, contattate i nostri uffici vendite che vi consiglieranno tempestivamente la migliore soluzione. Gli ammortizzatori montati in orizzontale sugli assali auto sterzanti, hanno una posizione obbligatoria indicata con la dicitura "ALTO" sul pezzo. Pertanto durante il montaggio dovrete assicurarvi che la parte con la dicitura "ALTO" sia rivolta verso il telaio del veicolo.

Se erroneamente viene montato in maniera diversa l'ammortizzatore non funzionerà correttamente. In caso di rottamazione dovrete attenervi alle norme vigenti riguardo allo smaltimento degli olii esausti.

In alcuni casi i nostri ammortizzatori non sono originali ma con essi perfettamente intercambiabili. Pertanto i nominativi ed i riferimenti dei costruttori citati su questo catalogo, sono da ritenersi a titolo puramente indicativo.

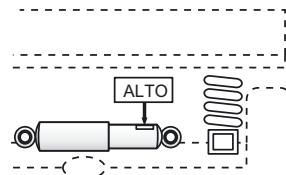

en Important hints

To ensure the proper operation of our WABCO shock absorber over time, we recommend that you follow these useful hints:

Before fitting the shock absorber, make sure that the dimensions of the replacement shock absorber at full compression and rebound are close enough to the existing one. Check also that the dimensions (D1×L1 – D2×L2) and the type of connections are compatible with those of the shock absorber to be replaced. Never select your replacement by approximation, especially when it is intended for vehicles equipped with air suspension systems. If in doubt, contact our sales office, who will promptly advise you on the best solution to your problem. Those shock absorbers that are to be installed in a horizontal position to selfsteering axles have a predetermined mounting position marked with the wording "ALTO" on one end. Be sure to install the shock absorber with the side "ALTO" facing the vehicle frame.

Improper installation will impair operation. In the event of disposal, follow the environmental protection rules concerning the disposal of used oil. In some cases, our shock absorbers may not be the original type, though full interchangeability is ensured anyway. For this reason, supplier names and reference numbers mentioned in this catalogue are provided by way of indication only.

Technical info on gas/oil disposal of old and defective shock absorbers.

For safety reasons, always wear safety glasses and protective gloves.

1. Place shock absorber in a horizontal position.
2. Make sure the shock absorber is secure and cannot move during the drilling operation.
3. Before drilling, pull out the rod until fully extended.
4. Check whether the unit is a high pressure monotube, low pressure twin tube or a conventional twintube type.
5. Drill a 1,5 cm deep hole of 5 mm at (A2).
6. Compress the shock absorber by minimum 30 mm.
7. Drill another 1,5 cm deep hole of 5 mm, 5 cm from the top side (B1).
8. Move piston rod up and down to accelerate oil removal.

⚠ The shock absorber oil needs to be disposed of in an appropriate container (to be treated like motor oil), in accordance with the national waste disposal law.

de

Technische Informationen über die Entsorgung von Öl und Gas aus alten und defekten Stoßdämpfern (inkl. Federbeine und Patronen)

Aus Sicherheitsgründen immer Schutzbrille und Schutzhandschuhe tragen!

1. Stoßdämpfer in eine waagerechte Stellung bringen.
2. Darauf achten, daß der Stoßdämpfer sicher befestigt ist und sich beim Bohren nicht bewegen kann.
3. Vor dem Bohren ist die Kolbenstange herauszuziehen, bis sie voll ausgefahren ist.
4. Überprüfen, ob es sich bei dem Stoßdämpfer um einen Hochdruck-Einrohr-, Niederdruck-Zweirohr- oder einen konventionellen Zweirohr-Typ handelt. Alle Hochdruck-Einrohr-Stoßdämpfer besitzen eine spezielle Markierung "high pressurized - do not heat or open".
5. Ein Loch mit 5 mm Durchmesser und 15 mm Tiefe bei (A2) bohren.
6. Den Stoßdämpfer um mindestens 30 mm zusammendrücken.
7. Ein weiteres, 1,5 cm tiefes Loch von 5 mm Durchmesser 5 cm von der Oberseite entfernt bohren (B1).
8. Die Kolbenstange auf und ab schieben, um die Ölentfernung zu beschleunigen.

⚠ Das Stoßdämpferöl muß in einem geeigneten Behälter entsorgt werden (Behandlung wie bei Motoröl), in Übereinstimmung mit den nationalen Abfallbeseitigungsgesetzen.

fr

Procédure d'élimination de l'huile et du gaz d'amortisseur anciens ou défectueux.

Pour des raisons de sécurité, toujours porter des lunettes de sécurité et des gants de protection.

1. Placer l'amortisseur en position horizontale.
2. S'assurer que l'amortisseur est bien fixé et en peut se déplacer pendant l'opération de perçage.
3. Avant de percer, faire sortie entièrement la tige.
4. Vérifier s'il s'agit d'un modèle monotube haute pression, bitube basse pression ou bitube classique. Tous les modèles monotubes haute pression portent une marque "high pressurized - do not heat or open" (haute pression - ne pas chauffer ni ouvrir).
5. Percer un trou de 5 mm et de 1,5 cm de profondeur en (A2).
6. Comprimer l'amortisseur d'au moins 30 mm.
7. Percer un second trou de 5 mm et de 1,5 cm de profondeur à 5 cm de l'extrémité supérieure (B1).
8. Actionner la tige du piston afin d'accélérer l'évacuation de l'huile.

⚠ Recueillir l'huile de l'amortisseur dans un récipient adéquat et la traiter comme l'huile moteur, en es conformant à la législation nationale en matière de déchets.

es

Información técnica sobre eliminación de gas/aceite de amortiguadores viejos o defectuosos.

Por razones de seguridad, utilice siempre gafas y guantes.

1. Coloque el amortiguador en posición horizontal.
2. Asegúrese de que el amortiguador está bien sujeto y de que no se moverá durante la operación de perforación.
3. Antes de taladrar, extienda el vástago hasta el máximo.
4. Compruebe que la unidad es del tipo monotubo de alta presión o bien bitubo convencional. Todos los amortiguadores monotubo de alta presión tienen una marca especial: "alta presión - no calentar ni abrir".
5. Perforar un agujero de 5 mm y de 1,5 cm de profundidad (A2).
6. Comprima el amortiguador un mínimo de 30 mm.
7. Taladre otro agujero de 1,5 cm de profundidad, a 5 cm de la parte superior (B1).
8. Mueva el vástago del pistón para acelerar la salida del aceite.

⚠ Es preciso deshacerse del aceite del amortiguador utilizando un contenedor apropiado (para que sea tratado como aceite de motor), de acuerdo con las leyes nacionales sobre eliminación de residuos.

Informazioni tecniche per l'eliminazione di gas/olio contenuto negli ammortizzatori vecchi o difettosi

Per ragione di sicurezza, si raccomanda d'indossare sempre gli occhiali ed i guanti di protezione.

1. Collocare l'ammortizzatore in posizione orizzontale.
2. Assicurarsi che l'ammortizzatore sia ben bloccato e che non possa spostarsi durante l'operazione di perforazione.
3. Prima di forare, estrarre completamente lo stelo.
4. Controllare se l'ammortizzatore è del tipo monotubo ad alta pressione o bitubo convenzionale. Tutti gli ammortizzatori monotubo ad alta pressione portano l'indicazione "alta pressione - non esporre al calore né aprire".
5. Praticare un foro di 5 mm di diametro con profondità di 1,5 cm in posizione (A2).
6. Comprimere l'ammortizzatore almeno di 30 mm.
7. Eseguire un altro foro di 5 mm di diametro, con profondità 1,5 cm, a 5 cm dall'estremità superiore dell'ammortizzatore (B1).
8. Far scorrere lo stelo dall'alto verso il basso più volte per accelerare la fuoriuscita dell'olio.

⚠ L'olio contenuto negli ammortizzatori dovrà essere recuperato in un contenitore apposito (come nel caso dell'olio motore) conformemente alle leggi nazionali in vigore per quanto riguarda l'eliminazione differenziata dei rifiuti.

WABCO Vehicle Control Systems is one of the world's leading providers of electronic braking, stability, suspension and transmission automation systems for heavy duty commercial vehicles. Customers include the world's leading commercial truck, trailer, and bus manufacturers. Founded in the U.S. in 1869 as Westinghouse Air Brake Company, WABCO was acquired

by American Standard in 1968 and spun off in 2007. Headquartered in Brussels, Belgium, WABCO employs more than 7,700 people in 31 countries worldwide. In 2007, WABCO's total sales were \$2.4 billion. WABCO is a publicly traded company and is listed on the New York Stock Exchange with the stock symbol WBC. Website: www.wabco-auto.com
