WABCO

About this catalogue

Welcome to the new Key WABCO spare parts for Asian vehicles catalogue, now bringing some of our best-selling product lines from the Asia-Pacific region to our European customers. This product has been designed to support distributors and workshops carrying out service and maintenance on a range of vehicles originating in the APAC region.

The increasingly global market for truck, bus and trailers is changing the way in distributors and workshops do business, and at ZF we are changing with the times, leveraging our international reach to better support our customers, delivering within Europe a wide offering of commercial vehicle replacement parts for OE brands that originate in the APAC region. Our catalogue has been designed to simplify and streamline the process of finding and ordering spares, reducing downtime and increasing productivity.

APAC product range

The range of APAC products that we have available in our new European catalogue extend to 85 part numbers, covering 452 cross references, and a mighty 32 OE brands. They are spread across almost 30 product groups, designed to provide the most comprehensive offering for truck, bus and trailer applications among brands that have made their way onto the highways of the European region.

Within these pages you will find detailed specifications of our new range of APAC systems and components for trucks, trailers and buses. These parts are established spares in the

ZF's WABCO products have been a mainstay of the commercial vehicles sectors for over six decades. Our collaboration with the world's leading OEMs, and our reputable aftermarket business allow us to respond to the changing needs of the sector without compromising the quality of our offering. Our Asian product ranges are tried and trusted and come with the support and expertise that only our global network can provide.

Our high standards have been put in place to delivery to you that essential peace of mind – knowing that when you order from the Key WABCO spare parts for Asian vehicles, every item is a like-for-like replacement part to the original OE part and will perform as well, if not better, than the part it replaces.

We are confident that this catalogue, with its comprehensive offering of parts, will play a key part in achieving our joint ambition: to enable the commercial vehicle transport industry to achieve safer, greener and leaner operations.

APAC region and available directly to European customers for the first time. The catalogue has been designed to deliver a one-stop shop for every workshop and distributor.

The OE brands serviced by our new Key WABCO spare parts for Asian vehicles catalogue include: Ankai; Beiben; BYD; C&C; CAMC; CNHTC; Daewoo; Dongfeng; Eurostar; Fangsheng; FAW; Foton; Hamana; Higer; Hino; Hyundai; Isuzu Motors; JAC; Kia; Kinglong; Kobelco; Mitsubishi Fuso; NEOC; Press Kogyo; Shaanxi; SIH Iveco; Sunwin; Tadano; Taiyuan; UD Trucks; Yutong and Zhongtong..

ZF Friedrichshafen AG

ZF is a global technology company and supplies systems for passenger cars, commercial vehicles and industrial technology, enabling the next generation of mobility. ZF allows vehicles to see, think and act. In the four technology domains Vehicle Motion Control, Integrated Safety, Automated Driving, and Electric Mobility, ZF offers comprehensive solutions for established vehicle manufacturers and newly emerging transport and mobility service providers. ZF electrifies different kinds of vehicles. With its products, the company contributes to reducing emissions and protecting the climate.

ZF, which acquired WABCO Holdings Inc. on May 29, 2020, now has 162,000 employees worldwide with approximately

260 locations in 41 countries. In 2019, the two then-independent companies achieved sales of €36.5 billion (ZF) and \$3.4 billion (WABCO).

With the integration of WABCO, the leading global supplier of braking control systems and other advanced technologies that improve the safety, efficiency and connectivity of commercial vehicles ZF will create a new level of capability to pioneer the next generation of solutions and services for original equipment manufacturers and fleets globally. WABCO, with almost 12,000 people in 40 locations worldwide, will now operate under the ZF brand as its new Commercial Vehicle Control Systems division.

Safety & testing instructions

Repair

Repairs must be made by qualified expert technicians with specific knowledge of the system only.

It is imperative that the applicable accident prevention regulations of the company as well as national regulations are observed.

It is imperative that the vehicle manufacturer's specifications and instructions are complied with.

Adjustment

Even where devices have the same product number, they may have different operating principles. Electronic control units especially are often produced universally and then adjusted for a particular application by the vehicle manufacturer setting corresponding parameters. If a replacement is required the device must be calibrated or parameterized with diagnosis equipment. Therefore you need to attend an adequate system training course and have the knowledge of special settings.

Apart from electronic control units, automatic load-dependent brake-power distribution is also likely to require special adjustments and settings.

Test

After replacing or repairing a device, a functional test of the entire system must be performed.

It is imperative that universal devices are tested on the basis of the vehicle manufacturer's data (such as load sensing valve label, brake calculation etc.).

Perform a test drive after finishing work on the vehicle.

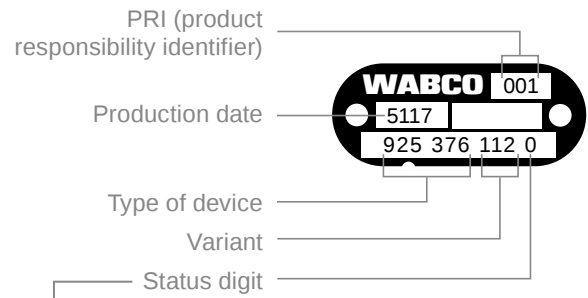

Disclaimer

The data or information contained in this document are intended for authorized WABCO Distributors or WABCO Service Partners only, and shall not be passed to any third party.

The document is provided for informative purposes only, and the provision shall not be construed as a warranty or guarantee regarding the accuracy, adequacy, completeness, timeliness or usefulness of the data or information or the characteristics of a product.

Structure of the WABCO number

WABCO

Off-Highway Catalogue

Should you like to have an overview of WABCO's range of hydraulic, pneumatic, electro-hydraulic and electro-pneumatic products and systems with the focus on applications in agricultural vehicles, construction machines, mining vehicles and all types of special vehicles?

Ask your sales representative to provide you with a WABCO Off-Highway Catalogue.
