

ABS/EBS CODE READER

The WABCO ABS/EBS Code Reader is the ideal tool for a quick and easy diagnostic job. With this handheld tool, you have easy access to the trailer ECU and instant sight of fault codes, plus access to our database for detailed information on those fault codes, viewable from any smartphone, tablet or computer.

The WABCO ABS/EBS Code Reader can be used for:

- Diagnostics of any trailer equipped with WABCO ABS and/or EBS.
- For quick pre-repair diagnostics across a fleet.

Product number:	Dimensions : 79 x 118 x 18,5 mm
300 200 002 0	Weight : 170 gr

PACKAGE COMPONENTS

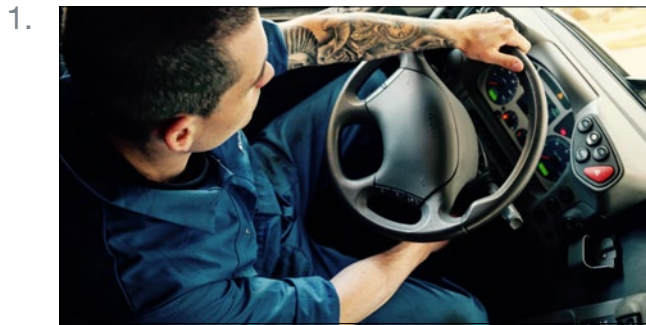

1. ABS/EBS Code Reader
2. Access to database for fault code information
3. User manual for fault code information

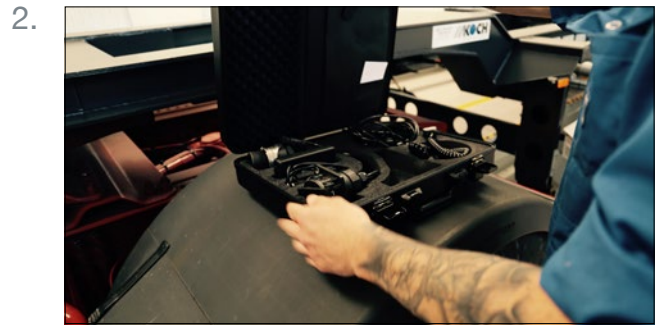

DIFFERENTIATORS

- The ABS/EBS Code Reader is a cost efficient, entry level diagnostics device.
- As a genuine WABCO product, the ABS/EBS Code Reader reads ECU codes more efficiently than any non-WABCO tools on the market.
- You have direct online access to enhanced information behind the codes via your smartphone, tablet or computer.
- Lightweight and handheld, the device is highly portable, making it suitable for workshop or roadside use.

HOW IT WORKS

Turn on the ignition to establish power supply.

Select the correct diagnostic cable (sold separately) to establish trailer ECU connection.

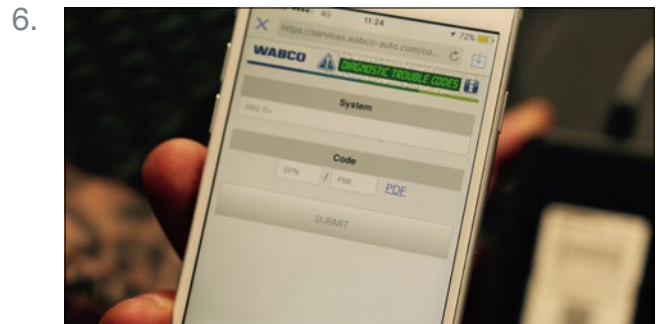

Connect the cable to the trailer.

Connect the ABS/EBS Code Reader to the trailer. The device is powered by the vehicle automatically. Follow the instructions on the screen access ECU error codes.

Scan the QR Code on Code Reader with your smartphone (or other mobile device). If you don't have a mobile device, the user manual will provide a translation of the ECU code.)

Once the code is scanned, your mobile device will automatically be taken to our dedicated website and get a direct explanation of what this particular code means, allowing you to begin the maintenance task.

 **Multilingual: interface menu, manual and website are available in 12 languages worldwide:** English, Chinese, German, Spanish, French, Portuguese, Brazilian Portuguese, Italian, Croatian, Hungarian, Czech and Turkish.
