

WABCO EASYFIT™

AUTOMATIC SLACK ADJUSTER

EASYFIT™ AUTOMATIC SLACK ADJUSTER

FUNCTION

WABCO's EasyFit Automatic Slack Adjuster transmits force from the brake actuator to the brake camshaft. It contains an adjuster which automatically compensates the wear of the brake lining so the stroke of the brake cylinders remain unchanged.

FEATURES AND BENEFITS

- Self energized sealing provides lifetime lubrication
- Powder coated housing to maximize corrosion resistance and product life
- Brake adjuster with clearance sensing adjustment design
- Optimized adjustment lowers risk of brake grabbing and hot runners
- Constant clearance between brake lining and drum, even under extreme temperature conditions
- Self-setting function avoids additional adjustments
- Service cost savings no more quarterly greasing
- Maintenance-free due to lifetime lubrication and sealing design
- Quick and easy installation

EASYFIT™ AUTOMATIC SLACK ADJUSTER

WABCO's EasyFit Automatic Slack Adjuster transmits force from the brake actuator to the brake camshaft. It supports a constant clearance between the brake lining and drum, even under extreme temperature conditions. Featuring a quick and easy installation, EasyFit is extremely durable and maintenance-free due to its lifetime lubrication.

About CVS Division

ZF's Commercial Vehicle Solutions (CVS) division is helping shape the future of commercial transportation ecosystems. Our mission is to be the preferred global technology partner to the commercial vehicle industry. Powerfully combining ZF's commercial vehicle systems expertise, extensive technology portfolio and global operations, the division serves the full commercial vehicle industry value chain. As the automotive industry progresses towards an increasingly autonomous, connected, and electrified (ACE) future, ZF's CVS division innovates, integrates and supplies components and advanced control systems that help make commercial vehicles and fleets operate more safely and sustainably. CVS unites ZF's former Commercial Vehicle Technology and Commercial Vehicle Control Systems divisions, the latter being formed following ZF's acquisition of WABCO in Spring 2020.
